This training uses a mix of formal teaching and practical exercises using real life case scenarios.

Attendees will be encouraged to discuss their organisations approach to risk management, raise issues and share practical solutions

## What will you learn

How risk management can help your charity operate efficiently and support trustees to fulfil their governance responsibilities in an effective and comprehensive manner.

## Participants will gain an understanding of:

- Why formal systems of risk management are needed (including regulatory standards and legal requirements relating to charities)
- A practical and easy to implement model of how to identify, assess and control the most significant risks to your organisation
- How to embed risk management into the culture of your organisation including the roles and responsibilities of managers and trustees
- A clear vision of the benefit to risk management and how it can be used to support and generate good governance.
